

4K HDMI 2.0 Switch with Remote Control

Item ref: 128.841UK

User Manual

Stylish, slimline HDMI switch that allows a single display to be connected to up to 3 HDMI sources and selected using the IR remote control or button on the unit. Gold plated connections ensure optimum signal transfer and the LED's on the front of the unit inform you as to which of the inputs are live at any one time. This updated version has a smart switching function and will support HDMI v2.0 signals, compatible with the latest 4K digital TV boxes producing 3840 x 2160 @ 60Hz resolutions.

Operating temperature range	-15°C to +55°C
Battery : remote	CR2025 (supplied)
Power adaptor	Input: AC (50Hz, 60Hz) 100-240V, Output: DC5V/1A
Dimensions	102 x 79 x 22(mm)
Weight	90g

Application Diagram:

Connection Instructions:

- Using an HDMI cable of the required length, connect one end to the output port of the switch and the other up to the HDMI input of your display device. **NOTE:** to maintain 4K resolution, always use 4K certified HDMI leads.
- Then using up to 3 additional HDMI cables connect your source devices to the input ports on the switch. **NOTE:** 16m maximum combined cable length for 4K @ 30Hz or FHD signals and 8m maximum combined cable length for 4K @ 60Hz signals.
- Connect the 5V power adaptor supplied to the unit and switch on.
- The switch inputs can now be selected using either the remote control provided or the “**Select**” switch on the front of the unit.
- When connected source devices are powered on, the switch has an auto select feature which will select the latest live device.
- The blue input LED’s on the front of the switch will indicate which device is live at any one time.

In The Box:

1. HDMI Switch 3x1
2. IR Remote Control
3. 5V DC Power Adaptor
4. User Manual

Warning:

- For reasons of electrical safety this device must never be immersed in water, exposed to damp conditions or excessive force.
- Please do not use this device if you find that it is damaged in any way and only use the power supply provided by the manufacturer.
- When not in use for long periods please disconnect the power supply from the mains.
- Do not attempt to repair this device or take apart under any circumstances, as this will invalidate your warranty.
